

Complete Basement Finishing and Kitchen Transformations

Now is the time to start your winter project with Eigsti Construction

Kitchen Transformations

The kitchen is the central hub of activity in most houses and a great way to increase the value of your home through a kitchen remodel. Kitchen remodeling projects not only improve the visual appeal, but the functionality and performance of the kitchen for the whole family to enjoy.

At Eigsti Construction we look forward to working with you to design your ideal kitchen workspace. From a small change/upgrade to a complete architectural overhaul, we guide you through every detail and provide a great variety of choices in materials and finishes to reach your objective (space saving, increased storage, family friendly, exquisite look, etc.). With our assistance your remodeled kitchen will become the kitchen that you have always wanted.

Basement Finishing

Your basement remodeling is an investment to increase home value. Basement remodels should compliment your home's existing architecture while expanding the usefulness. That is why we consider basement remodeling to be much more than the creation of one large room.
